Marriages healed and restored.

Leaders step up and lead in their gifting's.

See your community change because your church becomes a healing place, ministering to the tough subjects.

You are able to confront the abortion issue without involving politics, condemnation, or controversy.

You are able to deal with abortion tangibly by extending a loving hand to those who have made this choice.

DID YOU KNOW...

- 1 out of every 3 men and 1 out of every 3 women in your church have personally experienced abortion?
- Over 60 million abortions have happened in our country since 1973
- 43% of all women seeking abortion identify themselves as Protestant
- SaveOne has chapters around the world who have helped thousands recover after an abortion, but then go on to tell others the devastating effects of abortion. They are living out Revelation 12:11.

Abortion leaves a person with a gaping wound we do not have the human capacity to deal with by ourselves. That's where SaveOne comes in. We offer a Bible study (men's, women's, and siblings/loved ones curriculums) designed to help those who are suffering the aftermath of abortion. Through this Bible study we are seeing the culture of abortion change. People who have experienced abortion are able to tell others the truth. This truth goes directly against what society has told us to believe. Through these small group studies we are watching abortion end around us by simply applying God's Word to these wounds.

STARTING A SAVEONE CHAPTER IS EASY

Our success depends upon your success so we have made this process as easy as possible for you to reach the hurting

- Prayer covering by national staff
- Access to your SaveOne chapter coordinator for prayer, answers to questions, and encouragement
- Monthly updates from our founder
- Free web page on the SaveOne website with personal unlimited access
- Instant, national coverage for directing people who are hurting in your area to your church or ministry center
